

Dear Stephen,

Great news... on 14 December, President Obama signed the Program Management Improvement and Accountability Act (PMIAA) into law!

As you know, PMI supported this important legislation because it will improve workforce development opportunities for federal project and program managers while improving the success rates and efficiencies of government programs throughout Virginia and across the country.

And PMIAA wouldn't be the new law of the land without the PMI Hampton Roads Chapter's help! Your letter of support earlier this year was critical in showing Congress that it should invest in project and program management practitioners and standards to improve outcomes and increase the value that all Americans receive for their tax dollars.

So, on behalf of all of us at PMI, **THANK YOU** for the PMI Hampton Roads Chapter's support for PMIAA... and your ongoing commitment to *making project management indispensable for business results!*

Best regards,

Tommy Goodwin

PMI Government Relations Manager,  
Organization Relations & Programs
